Re. : Client Testimonial

Since the beginning working with Secutron Fire & Integrated Systems has always been impressive with the service orientation I find in their team. I believe they are always spot-on when delivering service to our company Pie Division – Krugersdorp through their understanding of the work they are rendering. Their service turn-around time is within acceptable time from the time I request service to when they deliver as per request.

Up to this far since I began working with Secutron Fire & Integrated Systems in almost a year and their team has been very easy to work with moreover their Management Team is and has always been willing to make sure that they keep in touch with me as the Risk Control Coordinator for Pie Division - Krugersdorp in making sure that the service level is at an acceptable standard.

I will definitely recommend any company to Secutron Fire & Integrated Systems that would wish to use their highly professional service.

Kind regards,

Teboho Chadwick Mokwena
